Explanation	Screenshot
<p>(1) Click on Next</p>	
RPA Challenge – Automation Factory – Add a Trigger	
<p>(1) Select Attended as trigger type</p> <p> This type of trigger is used to let the end user start his automations from the systray menu</p>	
RPA Challenge – Automation Factory – Add a Trigger	

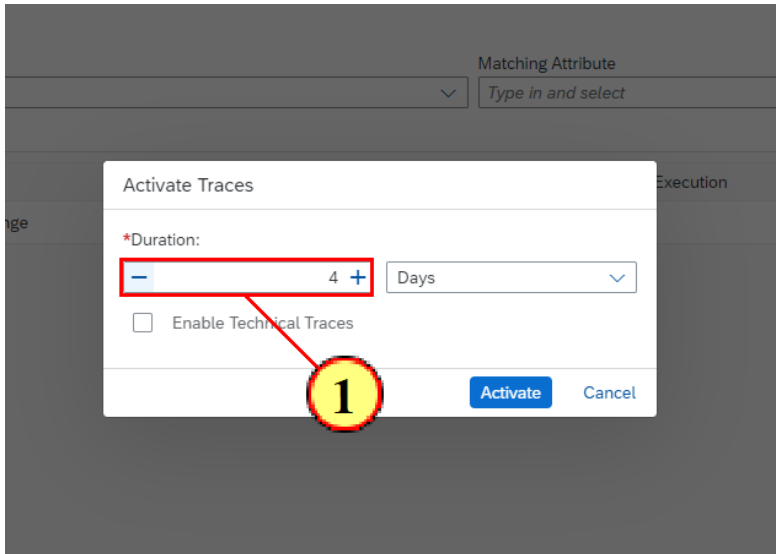

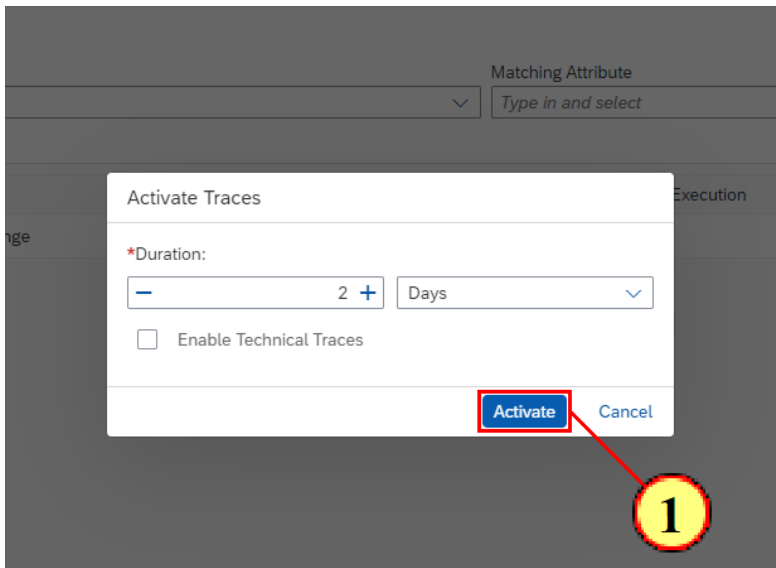

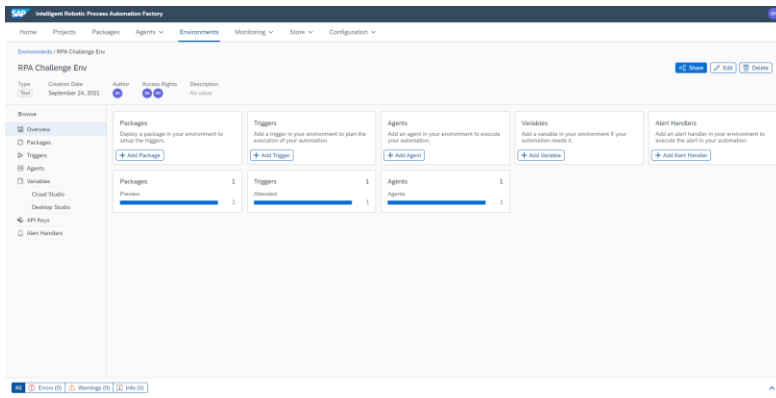

Explanation	Screenshot
(1) Click on Next	
RPA Challenge – Automation Factory – Add a Trigger	
(1) Set name to RPA Challenge	
RPA Challenge – Automation Factory – Add a Trigger	

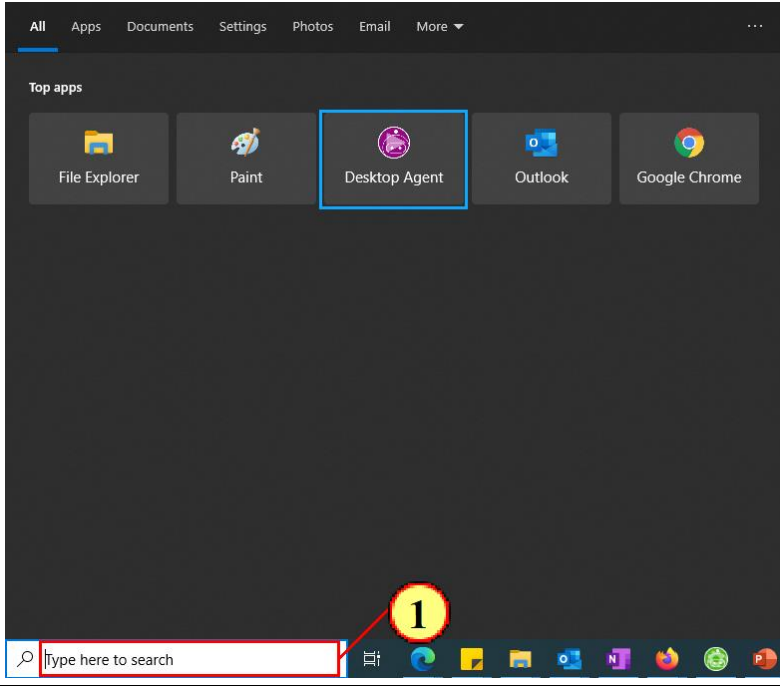

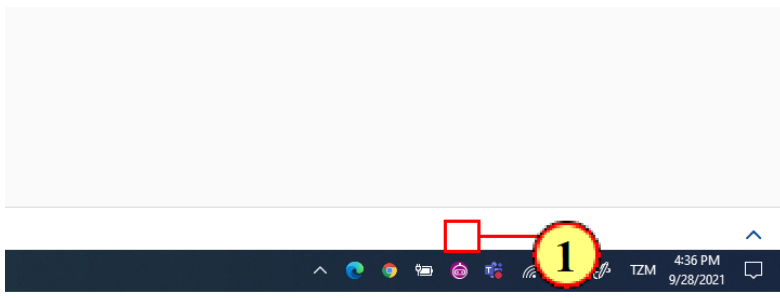

Explanation	Screenshot
(1) Drag to specify the time(s) (in half-hourly intervals) when the package will be available	 <p>The screenshot shows the 'Add Attended Trigger' interface. The 'Name' field is 'RPA Challenge', 'Description' is 'e.g. An attended trigger', and 'Package' is 'RPA Challenge'. The 'Schedule' tab is selected, showing a date range from 'Sep 24, 2021' to 'Oct 1, 2021' and a timezone of '(UTC+01:00) Brussels, Copenhagen, Madrid, Paris'. A calendar grid displays days of the week (Sun to Sat) and hours (12 to 12). A red box highlights the 12:00 slot on Sunday, and a red arrow points to it from a yellow circle with the number 1.</p>
RPA Challenge – Automation Factory – Add a Trigger	

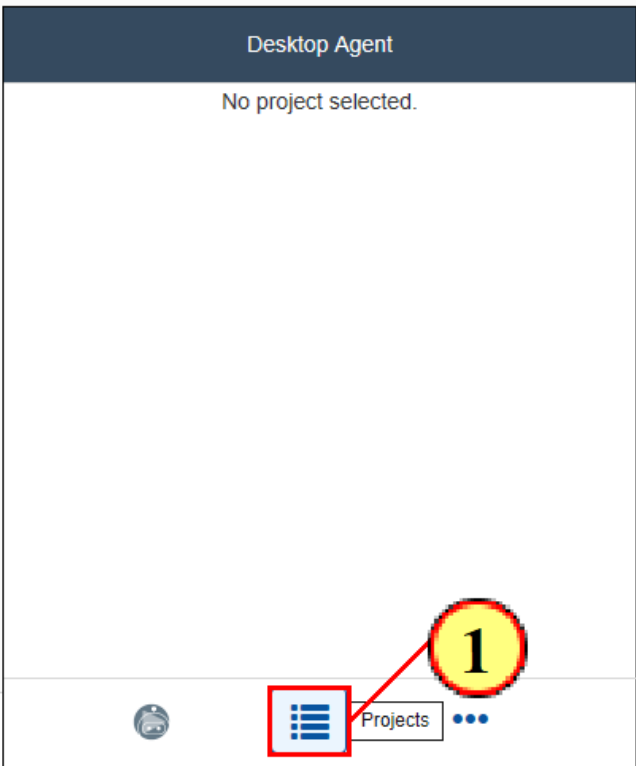

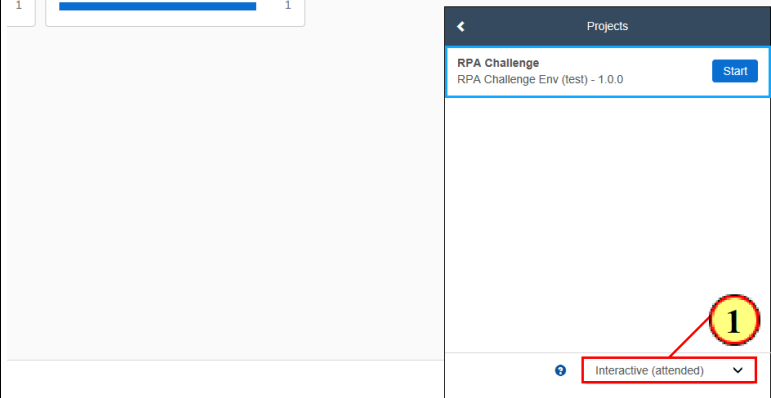

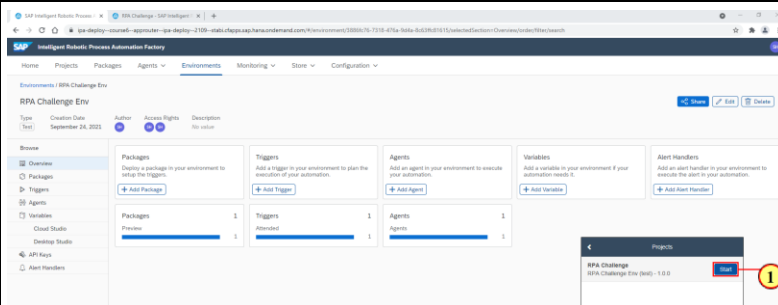

Explanation	Screenshot
(1) Drop where it suits your need	 <p>The screenshot displays the 'Add Attended Trigger' interface. It includes input fields for Name, Description, and Package. The 'Schedule' tab is selected, showing a date range from September 24, 2021, to October 1, 2021, and a timezone of (UTC+01:00) Brussels, Copenhagen, Madrid, Paris. A calendar grid shows days of the week (Sun to Sat) and hours (12 to 12). A red box highlights the 12 PM slot on Saturday, with a yellow circle containing the number 1 pointing to it. The 'Create' button is visible at the bottom right.</p>
